

Appendix A2.15

Query Editor Defaults

The following table lists the default fields that appear in the Query Editor for each functional area, and the order in which those fields appear. These are the settings in place when the Toolkit is initially installed. They may be modified using the Configure Application menu.

List Screen	Table	Field Label
Accessions	Accessions	Accession Number
		Title
		Acquisition Date
		Type of Acquisition
		Repository
Names	Names	Sort Name
		Name Source
		Name Rule
Resources	Resources	Resource Identifier
		Title
		Repository
Subjects	Subjects	Subject Term
		Subject Term Type
		Subject Source
